LB 1003

which Iowa funds their parks and recreational areas as well, in addition to the park entry permits, the state of Iowa on their fishing licenses as well. The last time I bought a nonresident Iowa fishing license, it was about as much as I pay for a resident Nebraska fishing license. So I'd be real interested to see how the state of Iowa funds these various recreational programs because it seems to me that the users get a much better shake out of the deal than the residents of the state of Nebraska, on the surface anyway. But anyway, Senator Schrock, if you would yield, I wonder if you know anything with regard to how the state of Iowa extends the funding for these type of activities, if you can share any light on that, if you know. I don't know if you know or not.

SENATOR SCHROCK: Senator Synowiecki, when I get past Nebraska borders, I get lost, and so I do not have those answers. You know, you're welcome to visit the rotunda. They would know more about that.

SENATOR SYNOWIECKI: I did do just that, Senator Schrock. They indicated it comes out of general funding. I was under the impression that the casino money, some of that was earmarked for recreational activities. That may very well be. But for informational piece, I guess, for members to keep in mind that, particularly for people who live right on the very eastern edge of our state, that it seems that both you get more bang for your buck, if you will, in Iowa's parks and recreation areas and fishing licenses and so forth, so I probably will not support the Chambers amendment but I'm still undecided on the actual bill. I have concerns, as does Senator Smith, with this, you know, outlay for the five year incremental increase per year. I have some serious concerns with that but I'm still undecided on where I'll go on that, but thank you very much.

SPEAKER KRISTENSEN: Senator Erdman. Senator Chambers, you're recognized to close on your amendment.

SENATOR CHAMBERS: Thank you, Mr. President, members of the Legislature. I have watched how America has conducted business in Afghanistan, and what they start by doing is launching missiles from hundreds of miles away, the Arabian Sea, and they
